Subject: SABSO Weekly Report for 12/15--21/2022
Attachments: SABSO Weekly 12-14-2022 kjedits .docx

Good Morning CPHEA,

Hope everyone had a terrific weekend? Attached please find SABSO's weekly report for the upcoming week. Please note, I'm pulling a few items that may be of interest just to ORD. The call for nominations for the IRIS Arsenic Panel closed Dec. 9th. Link is attached in case you have any last minute names. We are evaluating candidates and will keep the link open to ensure we have the expertise needed. We are planning for two meetings, a SAB meeting January 20 and one for BenMAP. Both will be virtual. On the 20th, the Board will discuss a workgroup report (methane) and recommendations made from the Science Supporting Decisions workgroup. BenMAP should publish later this week. Meeting is scheduled for January 13.

As always, if you have any questions, please don't hesitate to call if you have any questions. Wishing you a great week.

Shanti,

khanna
